

Living with phantom limb pain?

Amputee volunteers are needed for a research group exploring the design of virtual reality (VR) systems to reduce phantom limb pain.

Eligibility

- Must be over the age of 18
- Experience phantom limb pain/discomfort at least once a week

What is involved?

- Participate in a half day workshop located in the Southwest or London area (travel reimbursed up to £100 and lunch provided)
- Workshops will discuss your experiences surrounding your amputation, phantom limb pain and daily life, as well as future VR technology
- Experience state of the art VR technology
- Complete pre-workshop activities using the Probetool camera device (pictured below)
